

## Euromatic 370 1B,2B,3B

photo: Euromatic 370 1B,2B,3B

Fully automatic sawing machine for straight cut and angle cut for tubes , solid bars and profiled.

- Bundle loader CM L= 6000mm ( capacity 4000 Kg. ) for tubes and bars with automatic selection.
- Siemens control by touch screen , process RISC-CPA 64bit
- Possibility to have 9 different cuts
- More than 500 memories for each cut on CF card
- Memory of all parameters for each working process
- Working process charged by all parameters
- Control and optimisation of all the measures insert
- Possibility to have more than 4000 programs

Cut capacity:

- Round tube diameter min. 12mm max. 120mm
- Square tube diameter min. 12x12mm max. 110x110mm
- Rectangular tube diameter min. 12x12mm max. 120x100mm
- Solid bar diameter min. 12mm max. 60mm.
