DUO Grinding machine for flat and round parts

Tech. specs:

	Flat parts	Round parts
Kalınlık-Yükseklik min/mx	1 / 100 mm.	
Genişlik min. / max.	10 / 150 mm.	
Uzunluk min. / max.	160 / 6000 mm.	20 / 3000 mm.
Boru için Çap min. / max.	-	10 / 80 mm.
İlerleme hızı	1 / 10 mt./min.	1 / 10 mt./min.
Motor Gücü—Sürücü	0,1 kw.	0,1 kw.
Zımpara Motoru	3,0 kw.	3,0 kw.
Zımpara ölçüleri	2000x150 mm.	2000x150 mm.
Net Ağırlık	485 kg.	485 kg.
Makine ölçüleri	98x90xh.188 cm.	98x90xh.188 cm.

Flat parts grinding

Centreless equipment for straight parts with

Description:

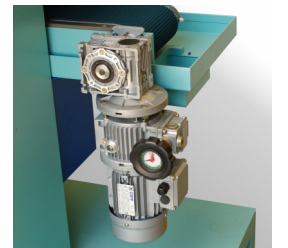

INNOVATIVE belt grinding machine that allows TWO DIFFERENT OPERATIONS:

“DRUM” GRINDING for flat surfaces: finishing and satining operations on tubes and bars with square and rectangular section, sheet and plates made of stainless steel, iron, aluminium, brass and other metals.

Particularly suitable for deburring operations on laser / plasma cut or sheared sheets.

“CENTRELESS”GRINDING: finishing and satining operations on straight tubes and bars having round section (equipment on request).

ON REQUEST a special equipment for WET PROCESSING can also be attached to the machine, even after sale.

Adjustable feed speed

Standard equipment:

Automatic feed for flat parts, pre-arrangement for connection to dust collector, motors voltage 400V - 50Hz , n. 2 abrasive belts in different grits, adjustment wrenches, instruction book,CE conformity certificate;

Basic machine price:

Price ? ...compare it, but choose for “GARBOLI”the original !!

DUO machine (Yalnızca Düz Yüzeylerin işleme için)	€
